

Λ missing mass: beam momentum vertex

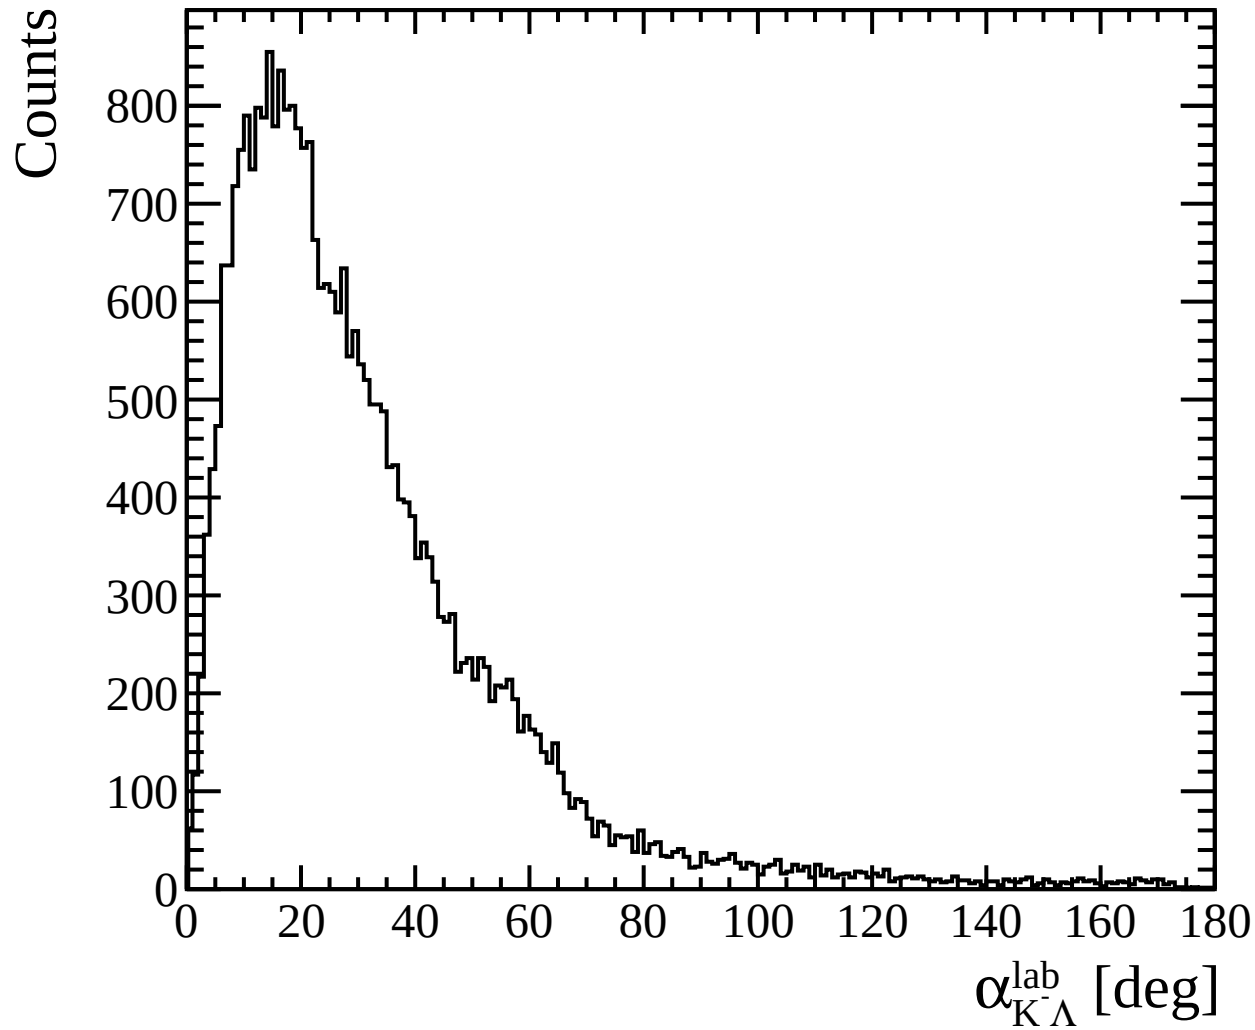

K18 RK beam-- Λ production closest approach

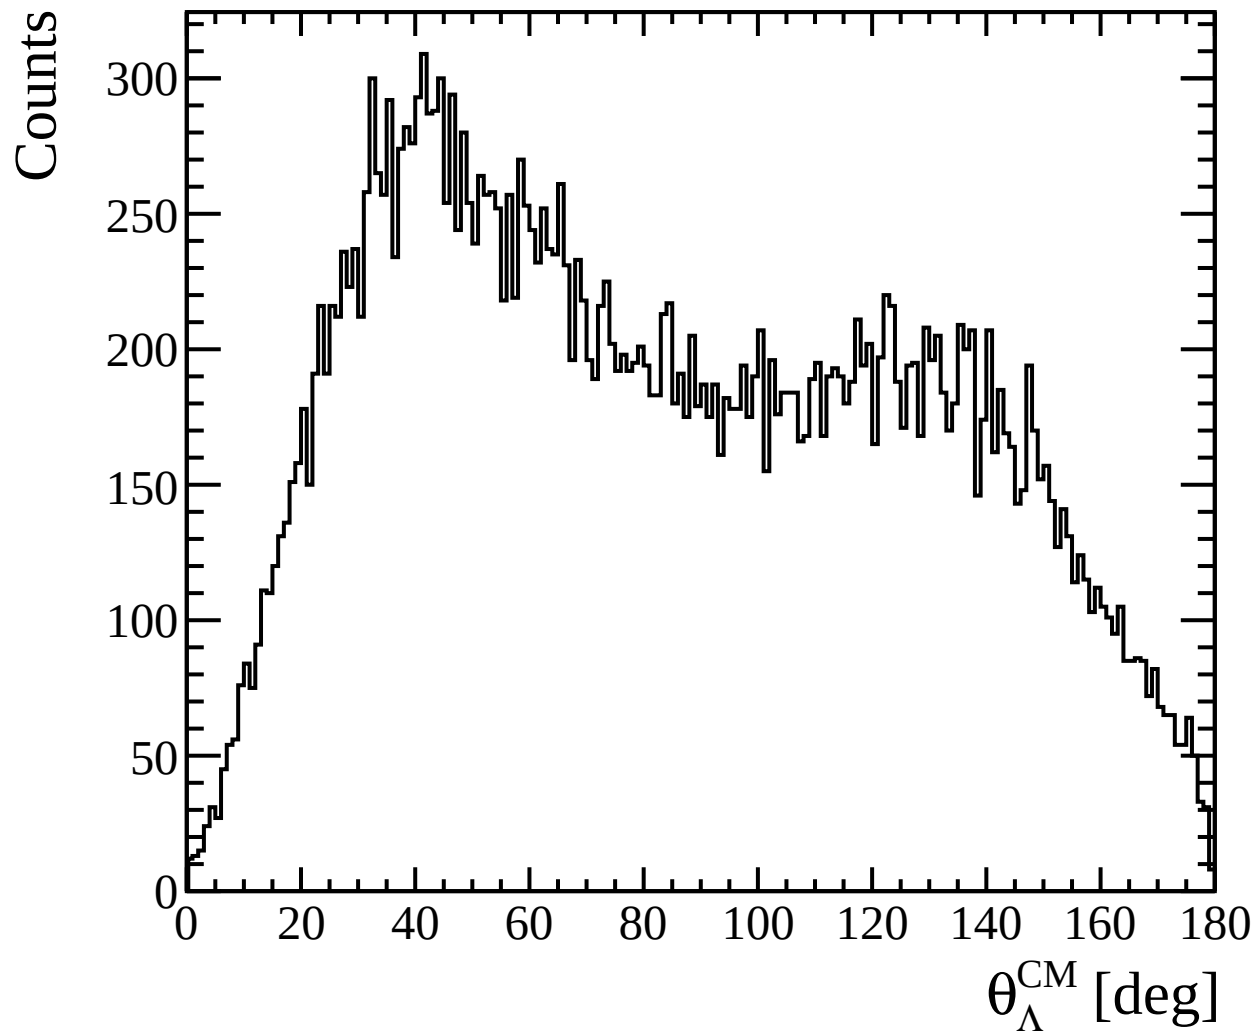

Reconstructed Λ production vertex

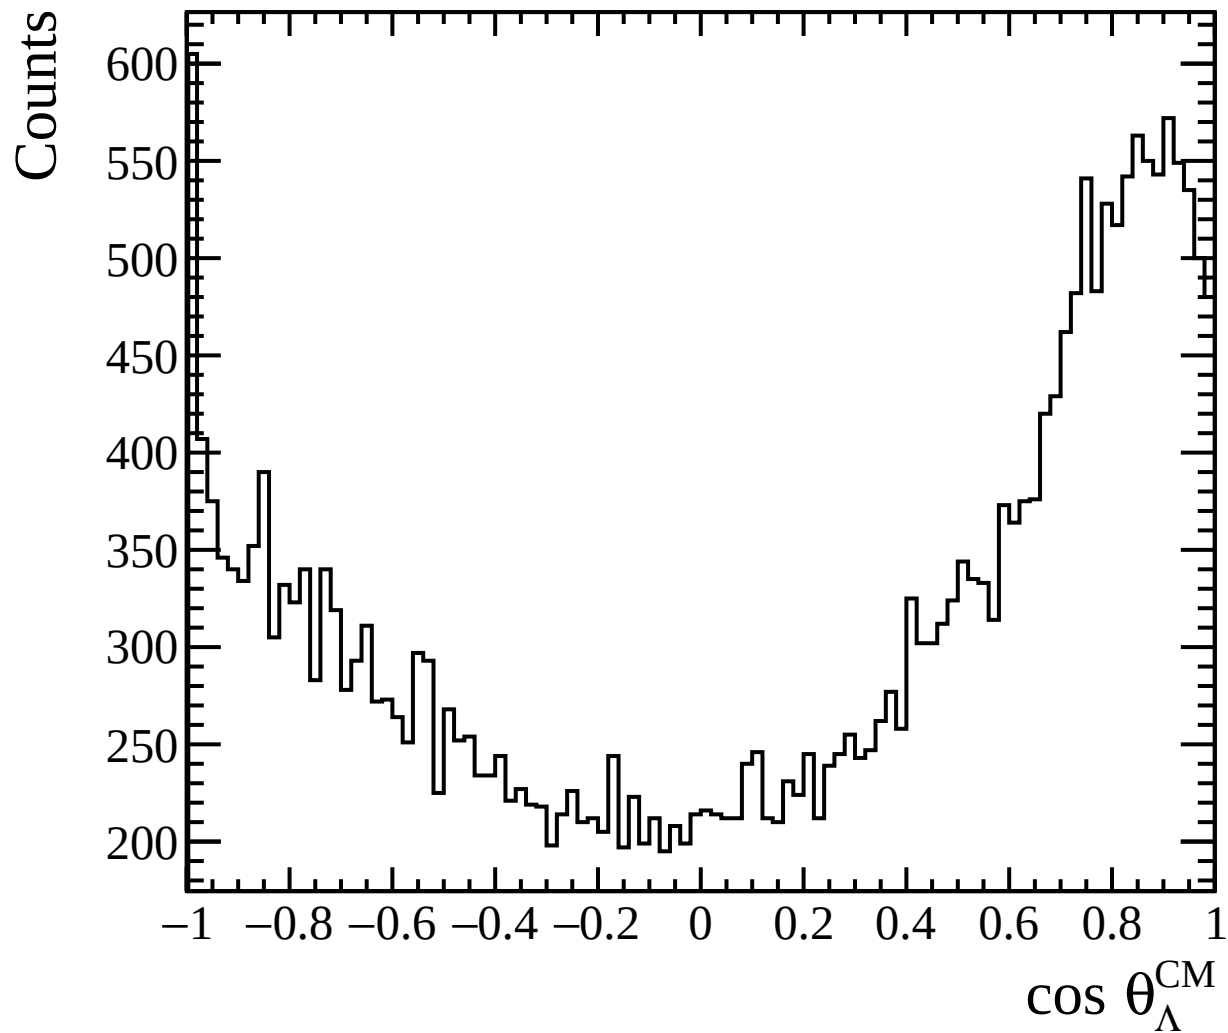

$K^- \Lambda$ opening angle (lab)

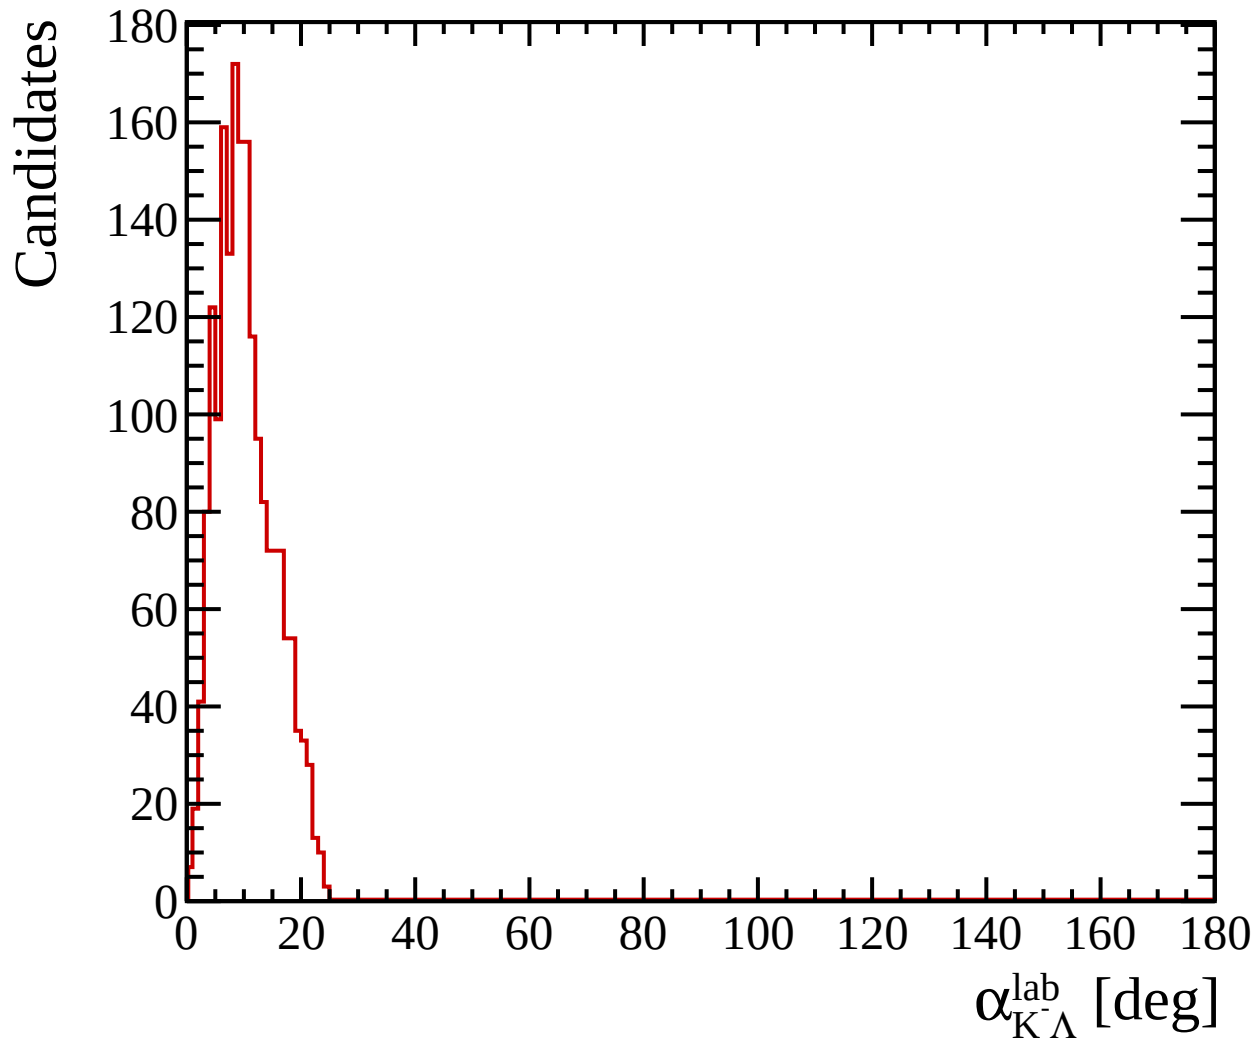

Λ production angle in K^-p CM

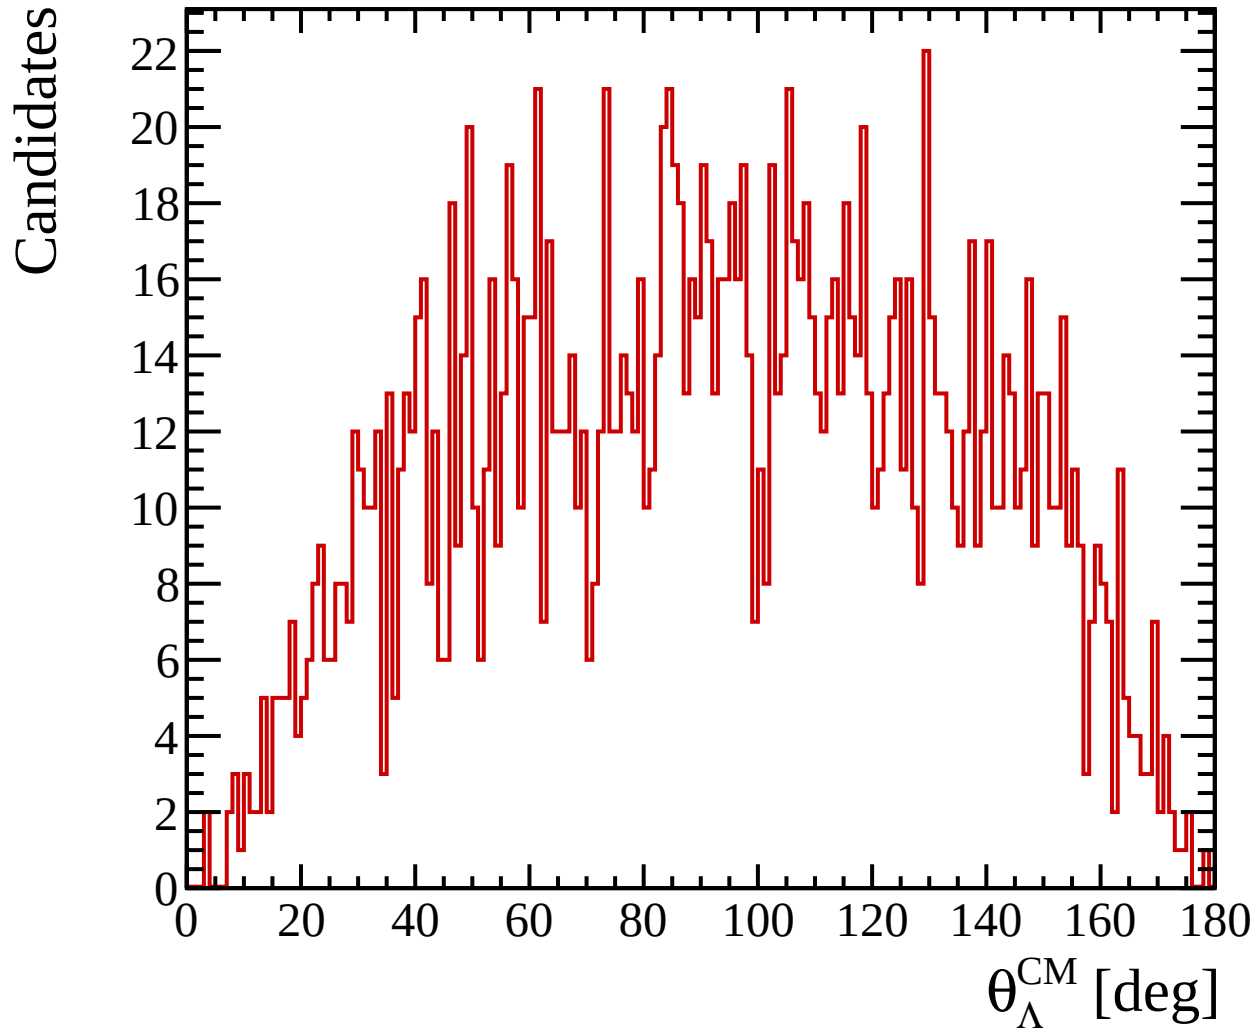

Λ production angle in K^-p CM

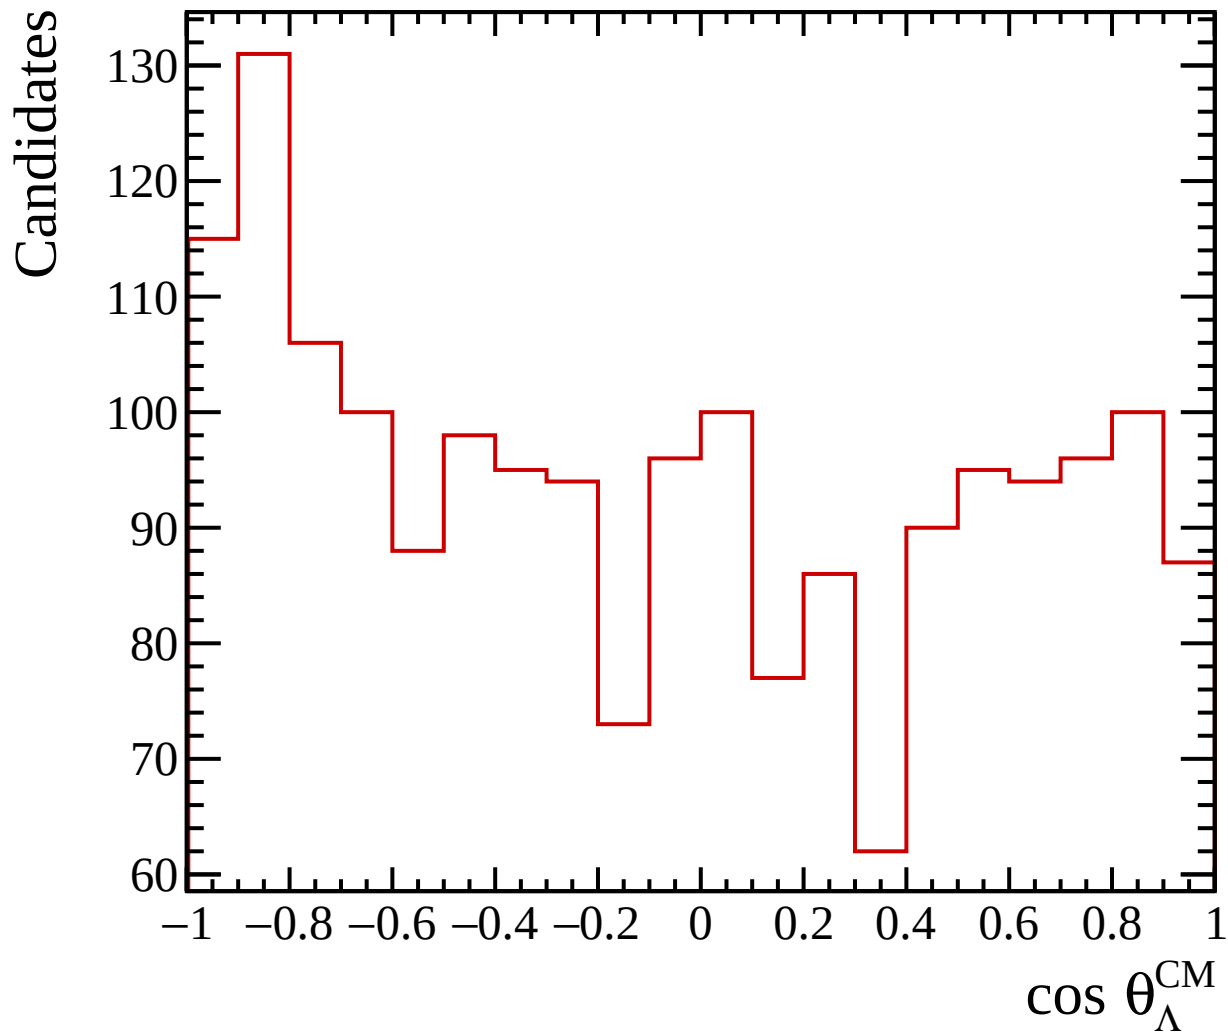

Selected Λ production angle ($M_X > 0.50$, LH2 inside)

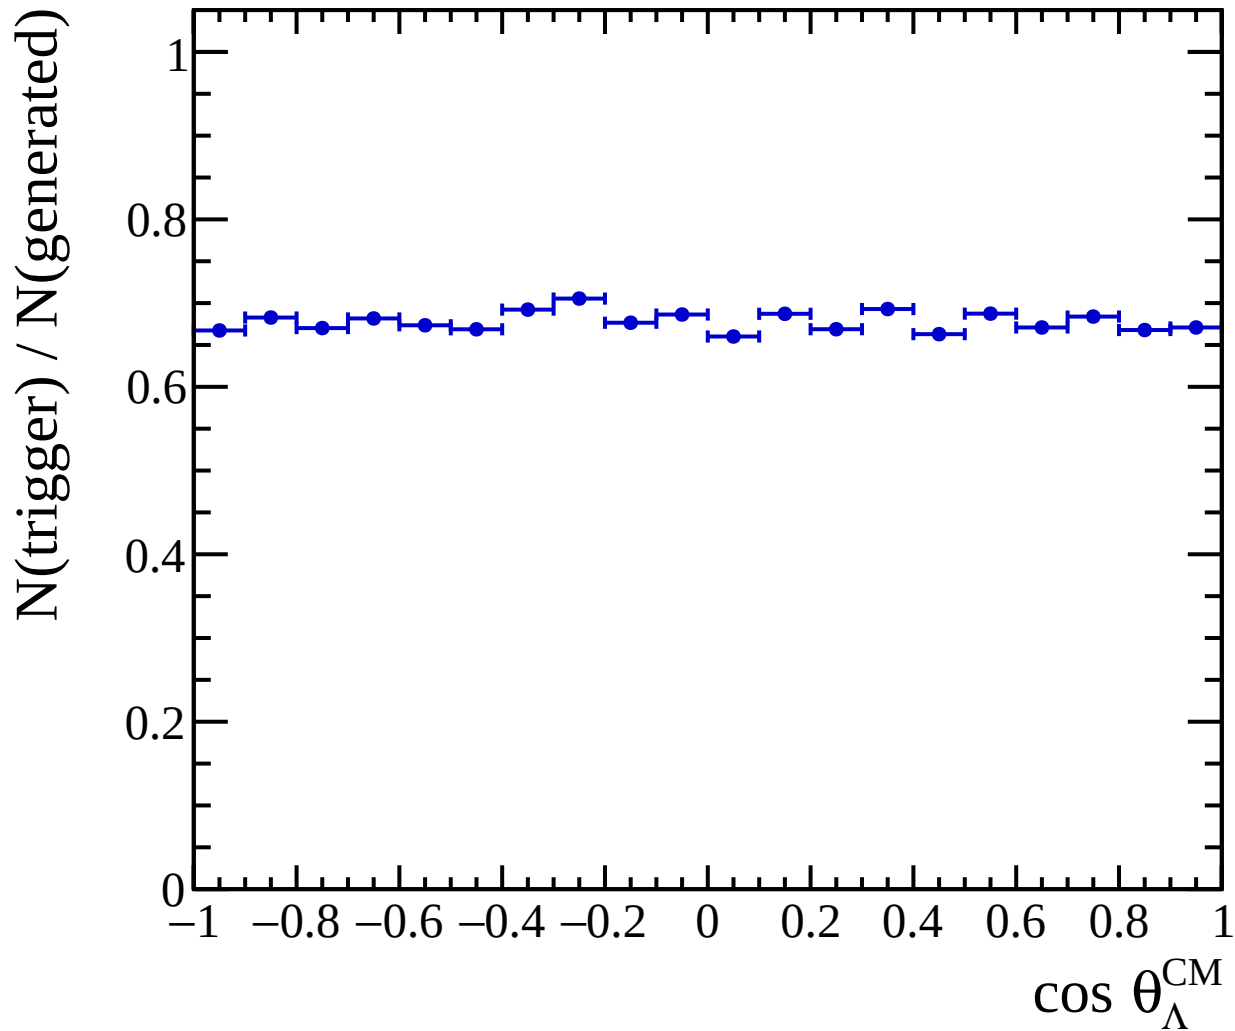

Selected Λ production angle ($M_X > 0.50$, LH2 inside)

Selected Λ production angle ($M_X > 0.50$, LH2 inside)

Trigger acceptance for generated $\Lambda\eta$

Selected Λ production angle, trigger-acceptance corrected ($M_X > 0.50$, LH2 inside)
